KEPT MURDER SECRET 19 YEARS

Accuses Man of Killing His Wife With a Whip.

ASSERTS HE SAW CRIME

Harrassed by His Conscience, Alfred Thomas Charges Robert Hassinger With Slaying His Wife to Wed Another Woman, and Is Sued For Slander.

Selinsgrove, Pa., May 26.—Harrassed by conscience over the secrets of a murder he alleges he witnessed nineteen years ago, Alfred F. Thomas, thirty-eight years old, of Beavertown, Snyder county, declares he has become so disturbed that he no longer can keep concealed the averred crime, and pleaded that he be brought before the court to air his story.

Robert Hassinger, sixty-eight years old, a farmer in the western part of Snyder county, caused to be issued on Thomas a capias on the charge of slander, demanding that Thomas be compelled to make restitution for damages alleged to have been sustained through Thomas' assertion that Hassinger killed his demented wife on July 7, 1890.

Sheriff Hackenberger went to Beavertown for Thomas. Thomas says that Mrs. Hassinger was cartwhipped in her home nineteen years ago, when she was last seen alive, and that her husband in a fit of anger struck her in the head with the butt end of the whip. Soon after Hassinger wedded another woman. Thomas has told his story to the district attorney.

THE CLASSIC DERBY

Greatest of All Horse Races to Be Run In England Today.

London, May 26.—The greatest of all horse races, the Derby, which will be run at Epsom Downs today, promises to be the most interesting Derby of a decade. The possibility that King Edward's Minoru will win the purse of $32,250, and the owner gain the distinction of being the first reigning monarch to take the classic, gives the contest an importance that cannot be over-estimated in the eyes of the British public. Minoru is now a hot favorite for the event. His principal opponent is considered to be Louis Winan's Sir Martin, from John E. Madden's Kentucky farm, which is supposed to have cost his present owner $80,000. No American stables are represented in the fifteen entries.

THE BACCALAUREATE SERMON.

Delivered in St. John's Episcopal Church.

St. John's Episcopal church was crowded to the doors Sunday evening to listen to the Baccalaureate sermon as delivered by the Rector John Hewitt to the Class of '09 of the Bellefonte High School. It was an excellent effort and abounded in good advice to young students about to enter upon the duties of life. The following is a synopsis of his address.

Subject: "The Upward Direction of a True Life."

In the matter of education the state assumes the position of a parent. Its primary motive is the proper equipment of every citizen for self-help. Its secondary motive is self-preservation through improved citizenship. It has an upward look for both the individual and the state. The education provided for by the state is not free. As to the individual there is a feature of benevolence in it, but as to the state the basic idea is a quid pro quo; essentially a contract. Practically the state says to you, "Rise to the standard of efficiency which our civilization demands; use to the best advantage the resources of body and mind developed by the school, and thus discharge your obligation to the state for what it has done for you."

You are mistaken if you think the state in providing for you education, has no other motive than that of enabling you to make a living and acquire material wealth. Far more valuable to the state are men and women of aspiring natures whose characters count for more in the common stock of social life than millions of material wealth. It is the high purpose of the state to produce such characters realizing that in such returns it will rise higher towards the good of social perfection. In other words, remember that the state, which means society within a given geographical area, has advanced to you the cost of your education which on your part beromes a debt of honor to be discharged in a commodity called good citizenship.

Another name for this is patriotism; something which grows and flowers in times of peace; a deep-seated sentiment on which character climbs to the highest duties of every hour of life and does not need the call to arms to prove its presence.

It is something like this which the state seeks to develope in its school wards; each one in the school room finding between the leaves of his text-book the a b c of self-help, and in the discipline of the school-room the upward direction of a true life.

By such reflections as these we trust you will come to a full appreciation of the generosity of the state and the high privilege it offers you of enrolling yourself among the workers of a civilization that masters the world."

The collection taken was given to the Hospital ambulance. At the close of the service Mr. Hewitt took the flowers from the altar and in a neat personal address distributed them among the members of the graduating class.

Another Bellefonte Boy to the Front.

On Saturday last May 22nd the directors of the Penna. Neutical School, which has charge of the Schoolship Adams, met and elected (with other officers) Geo. P. Runkle "Commander," as they had accepted the resignation of Capt. C. N. Attwater and as Runkle has filled the position of third, second, first officer, they could not take up a commander that was more capable for the position.

He went abroad the old school-hip Saratoga almost twenty years ago and has forged his way to the front by having the ability and experience or he could not have been taken up by the directors of the ship and placed in the position he now holds. as it has always been customary to make "commander" or captain, a gradnate of Annapolis. We with all his friends congratulate him and may he not stop, at where he is, but still be able to reach the top round of the ladder of fame, as no person is more deserving. He put himself where he is today, again he has our congratulations.

Fire at Houserville

Monday night, about 12 o'clock, fire destroyed the house at Houserville owned by George Keller and occupied by Grant Coble, who works in the woolen mill. The family was awakened by the falling in of the roof and chimney, and had barely time to make their escape. A few household goods were saved but the entire house was destroyed. Neither Mr. Coble nor Keller had any insurance. Only a short time ago the insurance on the house expired.

SAM LANGFORD STOPS HAGUE

Negro Knocks Out Heavyweight in Fourth Round.

WINS BRITISH CHAMPIONSHIP

Ring Generalship of Langford Enabled Him to Win an Easy Victory. Walsh Draws With Stanley—Jack O'Brien and Ketchell Matched to Fight Six Rounds.

London, May 25.—"Sam" Langford, the colored heavyweight of Boston, knocked out Ian Hague, the heavyweight champion of England, in the fourth round at the National Sporting club. The fight, which was for a purse of $9000 and the championship, was scheduled to go twenty rounds.

The ring generalship which he had picked up in many battles enabled Langford to score a comparatively easy victory over Hague, and the fourth round had barely commenced when the burly Yorkshireman was floored by a well directed blow and counted out.

In the first round Hague was slow to start. Langford had a shade the better of it until the end of the round, when Hague reached him with a hook to the jaw. This seemed to encourage the Britisher, and although no damage was done, in the second round Hague showed more cleverness than the colored man.

Langford opened the third round with a hard left to the face, and he used this blow effectively several times before the gong sounded. Hague, however, partially closed the American's eye with a hard right swing.

The men came together in a fast mix-up at the opening of the fourth, and Langford put a terrific right on the Yorkshireman's chin, which ended the contest.

The bout between "Jimmy" Walsh, the American fighter, and "Digger" Stanley, of London, for the bantamweight championship of England, was declared a draw. The fight went the full fifteen rounds. The purse was for $1750.

O'Brien and Ketchell Matched.

A GREAT SUCCESS.

The Hospital Ambulance Benefit in the Opera House Friday Night Raises a Neat Sum.

The benefit Friday night in the opera house to purchase an ambulance for the hospital was a grand success, the house being crowded to the doors, the gallery being filled as well as the down stairs. The persons who had the thing in charge deserve a great deal of credit for the work and the sum realized will be something over three hundred dollars. A good many of the yonng girls of the town dressed as nurses acted as ushers and others sold programmes and candy between the numbers. Christy Smith's orchestra furnished the music. The first number on the programme was a delegation from the Pharonians the minstral organization of the Penna. State College and they highly delighted the audience with their lot of good jokes and the fine singing all the numbers being good and we e well encored the boys having very good voices indeed.

After about an hour of the Minstrel first part an olio of several numbers was put on Mr. H. P. Armstrong and W. H. Foster doing a bit of musical melodrama which was very neatly gotten off.

Next a curtain raiser by the name of Locked Out a little comedy sketch was put on by Mrs. S. Cameron Burnside and Messrs George R. Meek and Hard P. Harris and was very cleverly played.

Mr. Lewis Daggett gave a fine monologue sketch running fire jokes, stories and local hits which caught the house and he was well applauded all through winding the act up with a dance with a dummy girl in which were executed many fine cake walk steps in which he excels he is certainly a natural minstrel.

Mr. Meade from State gave a few stunts in "Physical Torture" in which dressed in a snake suit of tights he did some marvelous contortions being exceedingly good for an amateur. The programme wound up with a Spanish dance by W. H. Foster of State in which dressed as a Spanish dancer he executed some very pretty gyrations and steps, he is very graceful and handled himself well.

The exact amount received and netted will be announced later together with the thanks of the committee for those to whom they are indebted. The town is certainly indebted to the students for the help and the fine show they gave and will be remembered.

Will Give Up General Practice of Law.

Thomas H. Murray, Esq., of Clearfield, has given public notice of his purpose on May 24th to retire from the general practice of law, in which he has been continuously engaged for forty years. He will continue to act as counsel for his firm, and serve in special cases, but will no longer hold himself as a practitioner.

In the early history of Centre county, when the bar here was composed of such stalwart practitioners as A. G. Curtin, A. O. Furst, Edward and Evan Blanchard, General James A. Beaver, C. T. Alexander, C. M. Bower, Daniel Keller, John H. Orvis, John G. Love and H. N. McAllister, Mr. Murray was a prominent figure in our courts. It was at a time when the coal and lumber litigations of Centre county were at their height, and to be a good, reliable lawyer meant large fees. Mr. Murray possesses a giant intelect and in his retirement the bar of Clearfield loses a strong and representative man.

GAVE HIS LIFE TO SAVE FIREMEN

Engineer Permits Comrade to Jump First in Train Crash.

PASSENGERS ESCAPE INJURY

Express From Norfolk, Va., Collides With Freight Train on a Siding Near Salisbury, Md.—Baggagemaster and Express Agent Injured.

Salisbury, Md., May 26.—Engineer Edward T. West, of the Norfolk express, which crashed into a freight train standing on a siding two miles south of this place, died a hero by permitting his fireman, Lee Cox, to jump to safety first.

It was impossible for Engineer West to jump from his side of the engine, as that was the side that hit the freight train. He had to wait for the fireman to jump, and then he tried to save himself by jumping, which he did, but the express car toppled over on him, cutting him in two and smashing him beyond recognition.

The fireman jumped just in time, barely escaping the car which killed the engineer.

W. W. Wright, who had charge of the express car, was badly injured about the head and face, and William Guthrie, baggageman, who was in the baggage car, had his arm badly mashed and was cut about the head and body.

The engine drawing the express was demolished and buried in sand banks along the track. The freight engine was badly wrecked, the driving wheels and cab being torn off. Passengers on the express escaped injury, except slight bruises. One express car and two baggage cars were demolished.

Traffic was stopped completely until a track could be built around the wreck. The cause of the accident is shrouded in mystery. The express train was moving rapidly at the time, being about on time and having the right of way.

SCRANTON FLYER WRECKED

Six Coaches Left the Rails, But No One Was Injured.

Allentown, Pa., May 26.—Passengers on the Scranton flyer, the Jersey Central's fast train between Philadelphia and Scranton, had a bad shaking up and a narrow escape from death, when the six coaches of the express left the rails at Slate Dam, fifteen miles west of this city. The accident is thought to have been due to a brake beam dropping, although railroad officials assign no cause as yet.

A short distance below a bad curve the train slowed up, and here the smoker turned completely over, dragging the remaining five cars from the rails and throwing them on their sides. The locomotive remained on the rails. None of the passengers were injured. The avoidance of fatalities or serious injuries is considered to have been almost miraculous.

PENNSY ENGINE RUNS WILD

TAFT LAUDS BLUE AND GRAY

Praises Soldiers of North and South at Monument Unveiling.

ON VIRGINIA BATTLEFIELDS

A Notable Gathering Attends the Unveiling of a Shaft to Governor Hartranft and Pennsylvania Dead at Petersburg.

Petersburg, Va., May 20.—Driving over historic roads and battlefields through clouds of choking white dust, President Taft attended the unveiling of a shaft of granite and a heroic figure in bronze placed on the bloody battleground of Fort Mahone, to commemorate the valor and heroism of General John F. Hartranft and the Pennsylvania soldiers of the Third division of the Ninth corps of the Union army. He addressed there a notable gathering of weather-beaten and time-grizzled old veterans in the blue of the north and the gray of the south.

Later he was the honor guest at an al fresco luncheon served on the magnificent oak-shaded lawns of one of the most beautiful old homes in the south, and finally, standing on a knoll of the Center Hill mansion, facing a multitude, he made an earnest plea in the twilight for self-sacrificing and non-partisan support for the reunited and common country.

"It has been a great day," he declared, "not alone for Petersburg, for Pennsylvania or Virginia, but in the history of the whole country; a day which will conduce to a greater union—a day to make stronger our common love for our common country, which all of us when necessary are ready to die."

Tribute to North and South.

The president's speech at the Pennsylvania memorial, at the base of which were gathered many of the veterans of the Keystone state and of Virginia, who fought the battles that made the enduring shaft significant, was a studied tribute to the north and to the south. Mr. Taft was unstinted in his recognition of the heroic deeds of both sides. The "common heritage of heroism" was his theme. Enduring good, he believed, had come from the strife which had been inevitable. In his later speech, however, when he had ceased to be the guest of Pennsylvania and had been taken in charge by the people of the Virginia commonwealth, extemporaneously addressing a vast and enthusiastic throng, Mr. Taft, beginning in a humorous vein by twitting the governor of Virginia, Mr. Swanson, on the rare gift of being able to make four speeches in one day, suddenly became serious, and for fifteen minutes held his audience in silent attention as he outlined in a general way his ideas of a citizenship which in the north and south alike should carry the country forward to permanence of prosperity and ever glorious future.

In addition to the president many other distinguished visitors participated in the day's events. Governor Stuart, of Pennsylvania; Governor Swanson, of Virginia; members of the battlefields commission of Pennsylvania, large delegations from the Grand Army posts and a host of Confederate veterans gathered, while at the luncheon the speakers included, in addition to the president and the two governors, M. Jusserand, the French ambassador; Rear Admiral Sigsbee, U. S. N., retired; President E. A. Alderman, of the University of Virginia; former Governors William E. Cameron and Andrew Jackson Montague, of Virginia; Mayor Jones and W. B. McIlwaine, of Petersburg.

Bird Just as Much Frightened as the Girl.

New York, May 21.—Cecilie Conway, fifteen years old, had a fright she will long remember, caused by a harmless robin, which became tangled in a maze of flowers decorating her peach-basket hat.

Miss Conway didn't know what to make of the tugging and twisting at her hat, which came down so far that she could see only straight in front of her. So she screamed for help and attracted the attention of Police Sergeant Cunningham, who was passing on horseback.

He found the girl trying to get her hat off, while the robin was attempting to fly, but not until Cunningham took a hand could the mix-up be straightened out. Then Miss Conway hurried home.

The robin became a prisoner and was lodged in a cage in the Yonkers police station, probably to spend the remainder of its days.

The Referee Decided the Charges Against Gould Had Been Proven, But Does Not Refer to Name of Any Co-Respondent.

New York, May 21. — Mrs. Helen Kelly Gould was granted an interlocutory decree of divorce from Frank J. Gould by Justice Gerard, in the supreme court. The decision was rendered on the report of Edward G. Whitaker as referee, who decided that charges made against Gould had been proven.

The defendant is held responsible for the education of the two children and also for their medical attendance.

No provision is made for alimony for Mrs. Gould, nor is the name of any co-respondent mentioned by her referred to.

After setting forth that the referee has found that the material allegations in the complaint have been established, Justice Gerard says in his order: "And it appearing to the satisfaction of this court that the defendant has been guilty as charged in the complaint, it is ordered and decreed that the said motion be granted and the report of the referee confirmed in all respects and the marriage dissolved."

Five of Mongolian's Passengers Reach Land by Walking.

St. Johns, N. F., May 21.—Notwithstanding efforts to assist her, the Allan line steamer Mongolian, which has been wedged in an ice pack off the mouth of this harbor since Wednesday, is still imprisoned.

One of the most interesting of the many features which have marked the detention of the big steamer was the walk across the ice from the steamer of five passengers, among them two women. They were Dr. McPherson and wife, Dr. Hunt, Miss McPherson and a Mr. Stephenson. Hand in hand, with the men ever watchful for the safety of their women companions, the little party mounted hummock after hummock, and on particularly smooth and even cakes they even slid with the abandon of their childhood days. They were anxiously watched both from the steamer and from the shore. When they reached the borders of the ice fields at the harbor mouth a tug was awaiting them.

MAN HUNT IN OHIO JAIL

Life Convict Escapes From Cell and Hides in Walls.

WAS SHOT AT BY GUARD

Missing Prisoner Has Been Seen Twice, But Escaped Capture Each Time—Floor of Bolt Shop Torn Up, But Too Late to Find Him There.

Columbus, O., May 21.—Officers and convicts at the Ohio state penitentiary are engaging in the strangest man hunt in the history of the American prisons. Harvey Johnson, a spry negro, a life-termer, received a few days ago from Franklin county, has escaped from the guards, hidden within the prison itself and cannot be found. He got away as he was entering his cell and evaded the guards and turnkeys.

Since then the guards believe they have seen the negro twice, each time in and around the bolt shop, where he had been working. Once a guard thought he saw the negro's head shoved cautiously out of a bolt shop window. The guard fired, but the bullet struck the window casing and there imbedded itself in the woodwork.

One hundred convicts were pressed into service, and every nook and cranny of the bolt shop explored to no purpose. Even the floor of the shop was ripped up, disclosing the negro's working clothes and a crude, quickly-constructed ladder. But the fugitive convict was not near the clothes.

A double guard is continuing the hunt. Warden Jones does not believe that the negro, while under the floor in the bolt shop, crawled into the sewer and got outside the prison walls that way. This is hardly tenable, inasmuch as the sewer is scarcely ten inches in diameter.

Captain Krouse, of the guardroom, also saw the little prisoner, but was unable to capture him on account of the darkness. Warden Jones has slept only a few hours since the convict began his strange game of hide and seek. Warden Jones has ordered the guards to shoot to kill if Johnson does not voluntarily give up. The police department has been notified.

JUMPS FROM HIGH BRIDGE

Escapes Uninjured After a Plunge of 135 Feet.

New York, May 21.—Albert House, twenty-five years old, jumped from the Williamsburg bridge, a distance of 135 feet, into the East river and escaped practically unscathed. The man was picked up by a motorboat, and at first it was thought that he was seriously injured, for the big drop had left him breathless and apparently in pain. He was taken to his home in Brooklyn, where he speedily recovered.

An examination revealed that his only injury was a bruised cheek. House recently abandoned his trade, that of a carpenter, and has been making dives from high places to acquire a reputation which would assure him a summer engagement as a high diver.

He was arraigned in court because of his jump and was held in $500 bail to keep the peace for six months.

STOY BOOMED FOR GOVERNOR

Politicians of New Jersey Coast Boost Atlantic City Mayor.

Atlantic City, May 21.—A boom for Franklin P. Stoy, mayor of Atlantic City, for the governorship of New Jersey, has been launched quietly by the politicians of the counties bordering on the coast.

The movement is reported by some as a slap at Governor Fort in return for his demand that there be no liquor selling in the resort on Sundays.

The Frank Thomson Scholarship.

Special efforts are to be made this year by the Pennsylvania Railroad to induce the largest possible number of the sons of its 175,000 employes to participate in the competitive examinations to be held in June for Frank Thomson Scholarships. These provide an income of $600 a year for four years for each of the successful candidates, enabling them to take a full course at any of the leading colleges of the country.

The Thomson Scholarships, two of which are awarded every year, were established in 1907 by the children of the late Frank Thomson, President of the Pennsylvania Railroad Company, as a memorial to their father. They are endowed in the sum of $120,000, and are designed to afford to the sons of both living and deceased employes an opportunity to qualify themselves for employment by the Company. Four scholarships have been awarded in the past two years. One of the successful contestants is at Yale University, another is at the University of Michigan, and two are at the University of Pennsylvania.

The examinations this year will be held under the direction of the College Entrance Examination Board of New York City. They will be open to the sons of the employes of all the Lines of the Pennsylvania System, including the Erie & Western Transportation Company, Cumberland Valley Railroad, Long Island Railroad, Grand Rapids and Indiana Railroad, Vandalia Railroad, Cincinnati & Muskingum Valley, Cleveland, Akron & Columbus Railway, Cincinnati, Lebanon & Northern Railway, Wheeling Terminal Company, and Waynesburg & Washington Railroad.

No Bounty to be Paid on Noxious Animals.

There will be no bounties paid for the killing of noxious animals by the state for the next two years at least. Advice to that effect was received by the Centre county commissioners from the state department Thursday, and the county officials are preparing to act accordingly.

The order comes as the result of the failure of the legislature to make an appropriation for the payment of bounties. From the appropriation made for this purpose two years ago there was a deficiency due the state and some of the counties, which required a special appropriation at this legislature of $40,000 to cover.

The state, out of the former appropriation, had paid bounties up to August 13, 1908, when the money ran out. The deficiency has resulted in the nine months since that time. The fact that such a large sum was needed to meet this deficiency led to the legislature to discontinue the original appropriation and the auditor general's department has been forced to send out notices to the various counties that the state will pay no more scalp bounties.

Centre county usually draws a good share of this annual revenue for bounties on foxes and other animals and the cessation of the payment of these will largely effect the trapping industry during the winter.

This improvement involves sowing of grass seed, the making of flower beds, the mowing of lawns, the correction of sewer difficulties, the arrangement of shrubbery, the riddance of old boxes and barrels and other rubbish, the repairing and painting of fences, the construction of sidewalks and the general clearing out of old stuff that is hoarded without any promise of ever being used in any useful way.

STRIKE TIES UP RAILROAD

Georgia Line Won't Attempt to Run Trains at Present.

FIREMEN ARE STANDING PAT

Management Announces It Will Operate the Road When the State Is Ready to Protect Life and Property. Governor Orders Sheriff to Swear In Deputies.

Augusta, Ga., May 24.—The Georgia railroad is completely tied up by the firemen's strike. The management is not trying to move trains, simply announcing that it has the men, the means and the equipment to proceed, and will do so when the state announces it is ready to protect its property and its employes.

The striking firemen are standing pat. They assert that they have not been and will not be parties to any violence. Their sympathizers, they claim, have done all the damage that has been done. General Manager Thomas Scott made the announcement that no trains were moving.

Governor Hoke Smith has wired the sheriff of McDuffie county to co-operate with the municipal authorities and to summon all deputies necessary to protect life and property. It is in this county that Thomson, where the crowd isssued their ultimatum that no trains should pass carrying either non-union firemen or negro firemen, is located. Governor Smith has also asked the sheriff there to keep him fully advised of the situation. The governor also has wired the sheriffs of Rockdale and DeKalb counties, giving them information that engineers claim to have been stoned at Conyers and Lithonia, and urging upon them prompt action for the protection of the railroad's employes and property.

From the offices of the Georgia railroad here it was announced that all freight accumulated at Atlanta for Augusta and all points beyond will be moved by the Central of Georgia and Seaboard Air lines.

The Georgia railroad is 171 miles long, from Atlanta to Augusta, and branches at Camak to Macon, at Barnett to Washington, at Union Point to White Plains, and also at Union Point to Athens. It is owned by a stock company and is being operated by the Louisville & Nashville, lessee.

SCRAPPERS MEET TONIGHT

Sam Langford and Ian Hague to Fight For British Championship.

London, May 24.—Every seat in the National Sporting club has been sold for tonight, when San Langford, the colored man from Boston, will make an attempt to win the title of heavyweight champion of England from Ian Hague, who recently took it from "Gunner" Moir, and "Jimmy" Walsh, the American fighter, and "Digger" Stanley will battle for the bantamweight championship of England. The big fellows will fight twenty rounds for a purse of $9000 and the bantams fifteen rounds for $1750.

Langford and Walsh have been training together at Stonebridge Park, and, with the small colony of Americans who have taken up their residence there, believe they have excellent chances of winning. Langford, who will enter the ring at about 165 pounds, is giving considerable weight to Hague, but expects to overcome this disadvantage by his quickness, in which he excels the Yorkshire man. Langford is a strong favorite in the betting, some wagers having been made at 5 to 2 on him to win.

FALL THROUGH TRAP UPON DINERS BELOW

Mourning Party Victims of Peculiar Accident.

Hamburg, Pa., May 24.—Four persons injured, one seriously, a quantity of dishes and glassware broken and clothing soiled beyond further use, was the result of the breaking of a trap door at the house of William Kauffman, Center township, nine miles from here.

Mr. Kauffman's five-year-old daughter had been buried and the funeral party had just returned from the church for dinner. While the table was filled with diners, including the pastor, Rev. D. P. Gerberich, a number of mourners had assembled on the second floor. Suddenly a trapdoor gave way, precipitating Mrs. Jacob Miller, her sister, Mrs. Lewis Schwoyer, of this place, and a boy directly upon the dining table.

Broken dishes flew in all directions, the food soiling the clothes of the diners.

While those who fell received slight injuries, Mrs. Elias Balthaser, of Straustown, who was dining, was badly injured, one of the women falling on her neck.

FAILS TO FIX DATE FOR VOTE

Senate Refuses to Fix June 2 For Final Vote on Tariff.

Washington, May 24.—Senator Aldrich's suggestion that a date be fixed for a final vote on the tariff bill met with the failure he expected. He suggested Wednesday, June 2, for the vote, and no sooner were the words out of his mouth than Senator Daniel, of Virginia, and Senator Cummins, of Iowa, were on their feet to object. Unanimous consent is necessary for fixing a date in the senate, and Senator Aldrich resumed his seat, smiling at the readiness with which the Democrats and insurgents had put themselves on record for delay.

Mr. Cummins explained that there were many disputed subjects yet to be considered, and he denied that time had been needlessly thrown away by senators desiring information on particular items.

Mrs. Sharp had forgotten to tell her husband that the tub had been re-enameled.

He said he had no idea of running away.

MILLION DIVORCES IN 20 YEARS

Number in Pennsylvania Trebles in Less Than Ten Years.

SCANDAL IS INCREASING

Presbyterian General Assembly Hears Startling Statistics—Reform Is Demanded—"Sad and Shameful Conditions Are a Disgrace to Christian America."

Denver, Colo., May 22.—How in the past twenty years nearly a million divorces have been granted to mismated men and women, how in nine years in Pennsylvania the number of divorces has almost tripled and how the evil has grown to be almost a national calamity, were features brought out in the report of the special committee on marriage and divorce presented to the Presbyterian general assembly.

The figures given in the report are taken from the government census and are surprising. The committee makes some suggestions for the elimination of easy divorces and asks that it be continued to carry on its investigations. The report says:

Scandal In Increasing.

"Although it is a fact to be deplored that the scandal and sin and sorrow resulting from the laxity of law that makes divorce and speedy remarriage possible show sad and shameful continuance, and that the efforts to resist and lessen these evils, that threaten the permanence and purity of the family life, the stability of the state and the life and power of the church, seem unavailing, yet the united efforts of the churches, of national and state officials and organizations of the Bar Association of the United States and conspicuously the faithful and persistent work of the national divorce congress, encourage us to believe that the movement has made great progress.

"There is a strong sentiment yet against the enactment of a national law regulating marriage and divorce, owing to the jealousy of states to preserve their rights. But the states should seek the closest possible uniformity and secure the least possible perplexity and the best results for the purity of our people, and for the peace and prosperity of our Christian nation.

Statistics Submitted.

"We submit the following statistics: "In 1887 the total number of divorces granted was 27,918, and in 1906, 72,062. The total number granted in twenty years was 945,625. Certain of the states granted divorces as follows:

"Pennsylvania in 1887, 1097 divorces, and in 1906, 3027; New York in 1887, 1042 divorces, and in 1906, 2069; North Dakota in 1887, 57, and in 1906, 320; Ohio in 1887, 2003 divorces, and in 1906, 4781; Kentucky in 1887, 949 divorces, and in 1906, 2050; Illinois in 1887, 2663 divorces, and in 1906, 5943; Massachusetts in 1887, 752 divorces, and in 1906, 1540; Virginia in 1887, 305 divorces, and in 1906, 1074.

"Surely this surprising and alarming increase in the number of divorces granted should call a halt, and impress all who care for their country and love righteousness with the necessity of discovering, if possible, the causes of such a condition and the possible cure for such a calamity."

EDITORIAL.

THE MAN AND HIS MONEY

The late Henry H. Rogers, of Standard oil fame, began life at the foot of the ladder. He started out, like Thomas A. Edison, as a newsboy. He had native ability in plenty, however, and he began to rise at once. When he died he was the head of a large number of corporations and left behind him about $50,000,000. Nor was he a very old man, either. His life was another illustration of the possibilities, in this country, for men of large brain and not too much heart.

We have no intention of saying anything to the detriment of H. H. Rogers. He has gone into a world where we have been taught to believe inflexible justice reigns. What he did most of us would do likewise given the opportunity and the mental skill. We have no right to censure another for taking advantage of opportunities we would have used in a similar way. But we do not commend his life to the imitation of the boy who wishes to win the most durable success in the battle of life. For material success is the least valuable and much the least permanent of all.

Some citizens who have given much attention to the matter firmly believe that any system of government which permits a single individual to accumulate in the course of a not particularly long life such a vast sum as $50,000,000 is radically wrong. They admit that there are many persons in the world who are the victims of self invited poverty, and they also concede that the ordinary citizen who is industrious and economical and not compelled to bear many burdens belonging to other people, should be able to acquire sufficient to maintain himself and his family, but they deny the possibility of any one gathering such an immence sum as $50,000,000 in the course of an ordinary lifetime in any land where equitable principles rule,

Of course none of the persons who argue in this way have become the owners of $50,000,000, or even one tenth of that sum. Those who are called plutocrats wax indignant when told that they did not actually earn all that belongs to them. Two of the richest men in this country, John D. Rockefellow and Andrew Carnegie, are trying to get rid of the wealth which they have accumulated in the passing years, but either would resent the insinuation that his hands were not clean or that he had gained his mammoth fortune in any other than perfectly honorable and legitimate way. They have many friends who will agree with them and who declare that the bitter assaults of which Mr. Rockefeller especially is the victim are inspired by jealous rage. And there you have it.

STUART'S SELF-DENIAL.

The Times-Gazette is of the opinion that in vetoing his own bill providing for the construction of a great high way across the state from Pittsburg to Philadelphia Governor Stuart gave an exhibition of self-denial which has won him many deserved compliments. There was no advantage in this project for the Governor himself but it was an enterprise to which he had given a great deal of consideration and which he believed would add much to the advance of the commonwealth If he felt also that, incidentally it might serve as a monument to his foresight and be looked upon in years to come as an index of his genius for constructive progress, surely such an ambition is worthy.

The demand for good roads is widespread and the benefits to be derived from them are so numerous that the public is becoming impatient on the subject all over the country.

Governor Stuart's plan was the most pretentious of any one undertaking thus far adopted by a legislative body in the United States. Yet when it becomes necessary to pass upon the enabling act he was constrained to subordinate his own wishes and hopes to the necessities of the commonwealth, and so he vetoed the bill rather than further curtail appropriations to institutions which look to the state for aid in their work. A more selfish man might have cut deeper into the amounts stipulated by the legislature in the scores of bills passed by it, and thus have saved $3,000,000 to start this great enterprise but the Governor is made of sterner stuff, and he did the graceful and heroic thing by choosing for his own part a sad personal disappointment. It is hoped, however, that some future general assembly will be more careful in its expenditures and make another attempt to carry out this project. Meanwhile the Governor must find grateful compensation in the general acclaim with which his patriotic course is received.

JOHN MITCHELL STRIKES BACK

Flays Manufacturers' President For Speech on Labor.

SAY THEY ADVOCATE VIOLENCE

Labor Leader Declares Manufacturers' Association Prate About Law and Order and Advocate Anarchy and Suggest the Cannon to Disperse Workingmen.

New York, May 26.—The recent arraignment of organized labor made here in the course of his speech of acceptance by John Kirby, of Dayton, O., the newly elected president of the National Association of Manufacturers, is made the subject of a condemnatory article by John Mitchell, former president of the United Mine Workers of America, published in the current issue of the National Civic Federation Review.

Mr. Mitchell quotes Mr. Kirby as saying that he had been elected to the presidency of the National Association of Manufacturers, not on account of his ability or on account of his national reputation, but because the members of the association knew where he stood on the labor question.

From this parallel Mr. Mitchell deduces that "the only truthful and sane declaration made by the newly chosen spokesman of the National Association of Manufacturers is that in which he says: 'I have not been elected as your president on account of my ability.'"

"Paradoxical as it may appear," concludes Mr. Mitchell, "the representatives of this employers' association in one breath decry and denounce what they term 'class divisions' and 'class hatreds,' and in the next breath malign and berate their fellow citizens who are workingmen, and all other groups in society in sympathy with the legitimate purposes and high ideals of the labor movement. They claim and proclaim the right and necessity of organization among employers, yet deny to workingmen the right of organization and combination. They prate about law and order, yet advocate violence and anarchy; they suggest the use of the cannon as a means of dispersing the workingmen; they malign and traduce the great majority of the empoyers of labor who refuse to join them in carrying forward their unholy and un-American designs to destroy the organized labor movement; and to cap the climax of their inconsistency they impugn the motives and question the intelligence of the religious, educational and philanthropic institutions of our country simply because these institutions have opened their doors to the organized labor movement and have listened respectfully to the claims made in behalf of the workingmen and women whose brain and brawn have contributed in no small degree to the commercial, intellectual and moral supremacy of the nation.

"How much better would it be for themselves, how much more would it contribute to the honor and glory of our common country, if these gentlemen of the National Association of Manufacturers would examine with open minds and intelligent discernment the real purpose, policy and philosophy of the American labor movement."

Pe-ru-na in Hot Countries.

In some countries the atmosphere is a natural tonic. Low temperature, high altitude, with an atmosphere rich in oxygen, are invigorating to the people. Such people are vigorous of body, quick in action, and enterprising.

Other countries are not so fortunate. High temperature, low altitude, little oxygen, and the atmosphere naturally depressing.

Tonics become almost a necessity of the everyday life. A scientific tonic in a large degree mitigates the untoward effect of a depressing climate.

A great many years ago Dr. Hartman devised Peruna. Its manufacture has been under his watchful care ever since.

To make of it a reliable and safe tonic which could be taken any length of time without producing a drug habit has been the ambition of Dr. Hartman.

That he has succeeded in bringing Peruna up to this high ideal is apparent by the world-wide reputation which it has attained.

Peruna is a tonic which is applicable in all depressing states of the system. It may be used by those recovering from acute ailments, or those who are depressed by climatic influences.

definite settlement of the claim directly with the company, subject to the approval of the government of the United States. Failing in such a settlement the course of arbitration will begin at the expiration of the four months.

About two weeks ago Pedro Gonzales arrived in Washington as a special messenger from President Zelaya, of Nicaragua, to settle the claim either by compromise or by arbitration.

IN CONTEMPT IN ODD CASE

Supreme Court Holds Officials Who Permitted Lynching.

FIRST TIME ON RECORD

Sheriff and Five Others Guilty of Conspiring to Lynch Negro Who Had Been Sentenced to Death, and In Whose Case the United States Supreme Court Had Granted an Appeal.

Washington, May 25.—For the first time in so serious a case the supreme court of the United States will, on next Tuesday, undertake to mete out punishment for the crime of contempt of the court itself, and the importance of the occasion will be enhanced by the number of the defendants.

The proceedings will take place in connection with the cases of Sheriff Shipp and Deputy Sheriff Gibson, of Hamilton county, Tenn., and four other residents of that county, named respectively Williams, Nolan, Padgett and May. These men were declared by the court to be guilty of an act of contempt in combining in 1905 in a conspiracy to lynch a negro named Johnson, who had been sentenced to death by the local courts upon the charge of rape, and in whose case the supreme court had interfered to the extent of granting an appeal, which had the effect of a supersedeas. On the night following the announcement of the court's action Johnson was taken out of the jail in Chattanooga by a mob and lynched. There was no resistance on the part of the jail authorities, and Shipp and a number of his deputies, as well as about twenty citizens, were proceeded against on the charge of contempt of the federal court.

The case has been pending ever since, and the number of defendants was from time to time reduced to nine. Of these nine three were found guiltless, while the other six were ordered to be brought into court next Tuesday for sentence. They will be taken into custody immediately and will appear in court in charge of Marshal Wright. The sentence may be either fine or imprisonment, or both.

The case is regarded as of exceptional interest, because it is practically the first time that the highest court in the United States has ever undertaken to assert its dignity or to resent acts or words reflecting upon it.

SIR KNIGHTS PARADE IN PHILADELPHIA

Over 5000 Templars March in Brilliant Procession.

Philadelphia, May 25.—The principal feature of the first day of the fifty-sixth annual conclave of the Pennsylvania commandery, Knights Templar, was the gorgeous parade this morning. Over 5000 Sir Knights in full uniform, with sixty bands of music, formed at Broad and Diamond streets, and to the strains of martial music marched down Broad street, cheered by several hundred thousand spectators, who lined the sidewalks and occupied the windows of houses. The procession was reviewed by a number of prominent Masons, including Mayor John E. Reyburn and Governor Stuart.

On the countermarch from Pine street, north on Broad, the bands, banners, past commanders and Sir Knights were massed into separate divisions, and to the stirring music of "Onward, Christian Soldiers," the final grand review proceeded north to the city hall.

Believing and Doing—James ii:14-26.

Golden Text—Faith without works is dead. James ii:20.

Verse 14 -What does James mean here by "faith"?

Can a man have true faith, if he is not filled with love for his fellows and doing all he can to help them?

If a man "say he hath faith," what is the test of whether he is telling the truth?

Are there those to-day, who say, and probably think, they have faith, but lacking loving hearts, and the fruits of love, are deceiving themselves?

What is a Christian's proof to himself, that he is not a deceived man in claiming to be in the favor of God?

Verses 15 13—How do you class those who see people in need of food, and clothing, and do not do all they can to supply the need?

Which person more nearly resembles Jesus, the one who talks very piously, and prays with the needy, but giving them no help, or the one who generously supplies the need without any religious pretensions?

If a man helps the needy to supply their own need, is that as well or better, than supplying the needs direct?

Is it possible for a church to be doing full Christian service which is not helping the needy, either in its own, or some other community?

Verses 17, 18—Is it possible to show faith without works?

Have all those who, with loving hearts are engaged in good works, also got saving faith, whether they profess to have it or not, and whether they are members of the church or not, and whether or not they are even orthodox in their views?

Have any, who attend church regularly and profess to be religious, but are harsh with the poor, give nothing to charity, and care nothing for the needy, got saving faith?

Have those got saving faith who pray for the poor and needy, and for the sick and suffering, and yet do nothing to feed the poor or comfort the sick?

Verses 19, 20 -Is there any moral merit in mere orthodoxy, or is there any essential moral blame in mere heterodoxy?

Granted a man with the spirit of Jesus, engaged in good works, what does he lose by being heterodox, and what does he gain by being orthodox?

Verses 21-26—When God told Abraham to leave his own country and to start for another that God would show him, was there any other way that he could have faith in God, but by actually starting on the journey?

What is the meaning of, "and Abraham believed God and it was imputed unto him for righteousness"?

Love is an essential part of faith, and love implies action, or good works, hence is it at all possible for a person to have faith who is not engaged in good works? (This question must be answered in writing by members of the club.)

Lesson for Sunday, June 6th, 1909. —The Power of the Tongue. James iii. 1-13.

Woman's Home Companionfor June.

Perhaps the most noticeable feature of the June Woman's Home Companion is the wealth of fiction. There are ten stories in this issue—not heavy, psychological diagnoses of world- worn minds, but breezy stories of love and fun that are suitable to the season. Among the writers in this issue are Edward Everett Hale, Maude Radford Warren, Cyrus Townsend Brady, Marion Hamilton Carter, Mary Hastings, Ernestine Winchell, Georgia Wood Pangborn, Frederick M. Smith. Marion Hill, Annie Hamilton Donnell and Rosa Naomi Scott.

The stories are illustrated by prominent artists, among whom are F. C. Yohn and John Cecil Clay.

Naturally, much is said about weddings in this June issue.

In addition to the lighter, joyous preparations, there are some serious articles handling that most serious of subjects marriage. In a very clever way the Companion demonstrates how marriage should be a success if conducted on a business basis and if the "Junior Partner's does her share. In connection with this there is a particularly bright article by Katharine Eggleston, pointing out some great dangers in our present methods of teathing girls.

But the entrance into marriage is not neglected, and there are in this issue stories of weddings the inexorable laws of fashion regarding them, and suggestions for charming original and inexpensive weddings.

Everybody who is being married this month is planning to go away for a vacation or to furnish a summer home. And for this part of the world there are many practical vacation ideas—ideas for verandah furniture, ideas for bungalows, talks about the ice-box, and a long list of frozen dainties that will make the hottest day a blessing. For the practical woman there is a particularly valuable story of one woman's experience with bees.

The regular Fashion Department, Children's Pages, Girls' Pages and Puzzle Page are as complete as usual, The Embroidery Department is especially attractive with designs and ideas to make fingers fly in the long summer days.

CAPE MAY PIER SMASHED

Heavily Laden Barge Hurled Against Jetty.

LOSS PLACED AT $25,000

Draft Was Hurled Along the Beach by a Tremendous Sea Until It Struck the Pier and Pilings After Pilings Were Battered Down—The Beach Strewn With Wreckage.

Cape May, N. J., May 22—The ocean iron pier in front of Cape May was almost totally demolished in sight of hundreds of people, who lined the boardwalk and beach strand.

The barge Robert Campbell, belonging to the Breakwater Construction company, of New York, loaded with 210 tons of stone for the Cape May harbor entrance, being built by the government, broke away from her moorings and before the strong northeast wind and high running tide was driven along the beach for a distance of two miles until it struck the pier.

Piling after piling was battered down by the action of the wind and wave surging the barge. The damage will amount to about $25,000.

The opera house on the pier was nearly the first part of it to drop into the surf.

The beach is strewn with chairs, benches and scenery, which were dropped into the water as the barge battered down the pier. The floor of the opera house is partly in the water and partly on the barge, which is still pounding against the remains of the pier at each swell.

The destruction of the pier caused great excitement here, and the session of the public school had to be given up, as nearly all of the pupils were on the beach.

The seas have been running high for the last twenty-four hours, and never has the ocean presented a wilder scene. The tide was completely up to the boardwalk and under the public pavilion in front of the Stockton.

COLOR LINE IN ARRESTS

Judge Holds White and Colored Men Do Not Suffer Equally.

New York, May 22.—A colored and a white man do not suffer equal humiliation in the eyes of the law for false arrest, according to the appellate division of the supreme court, which sustained an order of Justice Dugro, of the supreme court, reducing the amount of damages awarded George Griffin, a Pullman porter, from $2500 to $300. The porter was arrested in Montreal, charged with stealing a pocketbook, but the charge was not substantiated. He brought suit against Daniel H. Brady, a New York manufacturer, who caused his arrest. In his order Justice Dugro said:

"While in some senses the colored man under the law is just as good a man as the president of the United States, it would be a bad argument to say that he is just as good in all respects. The damages in a case of this kind depend on a man's standing and circumstances. If he is colored, that fact should be considered."

It is believed that Mrs. Carsten was out of her mind.

McPherson, who was killed by Jones in October last.

Richard Donegan Sentenced to Be Electrocuted In July.

ASK YOUR NEIGHBORS

And you will generally find that they know of more good, intelligent people, those of good sense and discernment in your vicinity who have been cured by Dr. Pierce's World-famed Family Medicines than by all other proprietary medicines. They have been making these cures right along for over forty years and altogether likely you will easily find people all about you who will be only too glad to say a good word for them. These old reliable curatives are not exploited or urged upon the afflicted by extravagant and false promises but have a record of real, genuine cures to sustain them.

Among women Dr. Pierce's Favorite Prescription is truly a favorite by reason of its remarkable cures which, for over forty years by far exceed those which can be credited to any medicine extant. By a little inquiry you will no doubt find some of these cured and grateful cases in your immediate neighborhood, for they are to be met with practically EVERY WHERE. They are Dr. Pierce's best advertisements. Seek their advice if you are a poor despondent over-burdened broken down, weak, or pain-wracked woman, suffering from some derangement or weakness incident to your sex.

Thousands Have Kidney Trouble and Never Suspect it.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a brick dust sediment, or settling, stringy or milky appearance often indicates an unhealthy condition of the kidneys; too frequent desire to pass it or pain in the back are also symptoms that tell you the kidneys and bladder are out of order and need attention.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills almost every wish in correcting rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. Corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of **Swamp-Root** is soon realized. It stands the highest because of its remarkable health restoring properties. If you need a medicine you should have the best. Better Not Get Dyspepsia

If you can help it. Kodol prevents Dyspepsia, by effectually helping Nature to Relieve Indigestion. But don't trifle with Indigestion.

A great many people who have trifled with indigestion, have been sorry for it—when nervous or chronic dyspepsia resulted, and they have not been able to cure it.

Use Kodol and prevent having Dyspepsia.

Everyone is subject to indigestion. Stomach derangement follows stomach abuse, just as naturally and just as surely as a sound and healthy stomach results upon the taking of Kodol.

When you experience sourness of stomach, belching of gas and nauseating fluid, bloated sensation, gnawing pain in the pit of the stomach, heart burn (so-called), diarrhoea, headaches, dullness or chronic tired feeling—you need Kodol. And then the quicker you take Kodol—the better. Eat what you want, let Kodol digest it.

Ordinary pepsin "dyspepsia tablets," physics, etc., are not likely to be of much benefit to you, in digestive ailments. Pepsin is only a partial digester—and physics are not digesters at all.

Kodol is a perfect digester. If you could see Kodol digesting every particle of food, of all kinds, in the glass test-tubes in our laboratories, you would know this just as well as we do.

Nature and Kodol will always cure a sick stomach—but in order to be cured, the stomach must rest. That is what Kodol does—rests the stomach, while the stomach gets well. Just as simple as A, B, C.

If You Read This

It will be to learn that the leading medical writers and teachers of all the several schools of practice recommend, in the strongest terms possible, each and every ingredient entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, catarrh of stomach, "liver complaint," torpid liver, or biliousness, chronic bowel affections, and all catarrhal diseases of whatever region, name or nature. It is also a specific remedy for all such chronic or long standing cases of catarrhal affections and their resultants, as bronchial, throat and lung disease (except consumption) accompanied with severe coughs. It is not so good for acute colds and coughs, but for lingering, or chronic cases it is especially efficacious in producing perfect cures. It contains Black Cherry bark, Golden Seal root, Bloodroot, Stone root, Mandrake root and Queen's root—all of which are highly praised as remedies for all the above mentioned affections by such eminent medical writers and teachers as Prof. Bartholow, of Jefferson Med. College; Prof. Hare, of the Univ. of Pa.; Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago; Prof. John King, M. D., of Cincinnati; Prof. John M. Scudder, M. D., of Cincinnati; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago, and scores of others equally eminent in their several schools of practice.

The "Golden Medical Discovery" is the only medicine put up for sale through druggists for like purposes that has any such *professional* endorsement—worth more than any number of ordinary testimonials. Open publicity of its formula is the best possible guaranty of its merits. A glance at this published formula will show that "Golden Medical Discovery" contains no poisonous, harmful or habit-forming drugs and no alcohol—chemically pure, triple-refined glycerine being used instead. Glycerine is entirely unobjectionable and besides is a most useful agent in the cure of all stomach as well as bronchial, throat and lung affections. There is the highest medical authority for its use in all such cases. The "Discovery" is a concentrated glyceric extract of native, medicinal roots and is safe and reliable.

A booklet of extracts from eminent medical authorities, endorsing its ingredients mailed free on request. Address Dr. R. V. Pierce, Buffalo, N. Y.

END OF TARIFF DEBATE NEAR

Aldrich Asks Senate to Fix a Date to Take Vote.

PROGRESSIVES MAY OBJECT

Independent Republicans, as Well as the Democrats, Said to Be Tiring of the Lengthy Discussions—Hale Introduced Resolution Providing For Night Sessions.

Washington, May 22.—The end of the debate on the tariff bill in the senate will soon be in sight. Today Senator Aldrich asked the senate to fix a date for taking a vote. It is expected that the Democrats will join in a proposition to end debate within a reasonable time and take a vote. The opposition, if any, will probably come from the "progressives." One objection can prevent a unanimous consent agreement. It is understood now that the "progressives" are getting tired of their fight and may not continue it much longer. They have been beaten on every proposition they have advanced and Senator Aldrich's grip on the situation has been demonstrated by every vote.

Recently the discussion these radical Republicans have indulged in has been simply a reiteration of the speeches they made earlier in the debate. This is what Mr. Aldrich and his associates on the finance committee object to. They are willing to give all the time necessary for a business-like and legitimate discussion of the merits of the various rates, but they object to having lectures and addresses indulged in without limit on matters not relevant to the schedules under consideration.

Senator Hale introduced a resolution providing for night sessions of the senate, the meeting hour to be 11 o'clock in the morning and the adjournment not later than 11 o'clock at night. Mr. Aldrich's notice and Mr. Hale's resolution mark the beginning of the end of the tariff debate.

They denote the intention of the leaders to push the consideration of the bill and to enforce the rules of debate so that business may be transacted.

It was announced that the coalition of Democratic senators and "progressive Republicans" had been broken so far as the income tax question is concerned and that amendments on that subject would be presented by both Senators Bailey and Cummins. Both of these amendments will provide for flat rates of tax, but they differ on some other important feature, particularly the proposed tax on corporations.

DISPUTE OVER A COLLEGE

University Withdrew From Presbyterian Control to Get Carnegie Gift.

Savannah, Ga., May 24.—A contest that bids fair to be sharp began this afternoon when the general assembly of the Southern Presbyterian church, in session here, considered the complaint of General Bennett H. Young, of Kentucky, and others, over the withdrawal of Central University of Kentucky from the control of the church.

The controversy arises over a question of jurisdiction. The Central University of Kentucky was taken from the control of the church in order to qualify it for a donation from Andrew Carnegie. This, it is contended, was the action of the Kentucky synod, and an appeal was taken from the synod to the general assembly by General Young and others.

It has become evident from the preliminary fencing that the feeling is tense, and the decision of the general assembly, sitting as a court, may be regarded as one fraught with great importance to the church.

SOUTHERNERS CHEER TAFT

President Explains His Policy Toward the South.

PANIC IN MIDST OF STORM

Cloudburst Strikes Crowd at Stand From Which He Reviewed Mecklenberg Parade and Rush For Shelter Followed — Taft Received Quite a Drenching.

Charlotte, N. C., May 21.—President Taft came to Charlotte, the home of the Mecklenberg declaration of independence, signed in May of 1775, and placed himself squarely on the side of those who look back upon this declaration as one of the first significant steps which led ultimately to American independence.

In his address to the people of North Carolina the president clearly explained his policy toward the south. His own recent appointment of a Democrat to the federal bench in this state gave him an opportunity to expand upon his previously expressed views. Mr. Taft urged again the advisability of an intelligent, logical opposition party.

"I do not believe that we are on the point of a political revolution in the south," said the president; "I never have had such a dream. What I do desire, and believe we are on the eve of, is a complete tolerance of opinion and that there shall grow into respect and power an intelligent fighting opposition party in each state of the Union."

The president's political utterances were received with the same fervor of enthusiasm as his tribute to the signers of the Mecklenberg declaration. Mr. Taft constantly was interrupted by the cheers that rose spontaneously from his southern hearers. As to his appointment of a Democrat upon the bench, the president declared that throughout the south he intended to pursue the policy he already had indicated of appointing to office only that man who, Republican or Democrat, can command the highest confidence and commend himself to the community in which he lives.

Taft In Midst of Storm Panic.

A cloudburst breaking over the city during the afternoon just as the splendid military, floral and civic parade was passing in review before the president, promised serious consequences for a time. It set the densely packed throng in front of the reviewing stand into a panic, and there was a wild rush for shelter. The president's box was a goal for many men and women, and the chief executive had to be surrounded to save him from the sudden crush. While the confusion was at its height, and to add to the tense situation, there was a blinding flash of flame and a loud report not fifty yards from where the president stood. It developed later that a quantity of black powder which was to have been used for saluting purposes had been prematurely ignited. No one was injured, either in the explosion or in the crush about the reviewing stand.

The president received quite a drenching, and for a time it seemed that the frail canvas covering the reviewing stand would tumble about the heads of those beneath. Among these was Mrs. "Stonewall" Jackson. When she had met Mr. Taft earlier in the day she had earnestly exclaimed: "I am indeed delighted to know the harmonizer of all our hearts."

TOPERS VICTIMS OF STRANGE BAND

Are Terrorized by Mysterious Temperance Clan.

WORSE THAN NIGHT RIDERS

Intoxicated White Man Gets a Coat of Stove Polish, and Coal Black Negro Wakes Up In Prison White-Washed. Nearly All Tipplers Come to Grief.

Greenwich, Conn., May 24. — Worshippers of the god Bacchus in the village of CosCob and vicinity have lately become terrorized by a mysterious clan, which is working in the interests of temperance in a novel fashion.

During the last month nearly every tippler in the place has come to grief one way or another. The last case of misfortune falling upon the besotted happened when the police of Greenwich were called upon by Justice of the Peace George W. Brush to arrest a negro who was making a disturbance in the village street.

Policeman Jones took into custody a very black man, who was later discovered to be Charles Carolig. Justice Brush said the man had been roaring up and down the village streets, reciting some fancied wrong that he said had been done him, but which was not then evident. Carolig tried to follow the old saying and "tell his troubles to the policeman," but was hustled into a cell as soon as he reached Greenwich.

When the jailer aroused the man he called: "Come out here, you nigger." A torrent of profanity issued from the cell, and upon examination the keeper found that Carolig was really as white as himself, but his true color had been concealed under a well-polished coat of stove blacking, which had evidently been applied while he lay in an alcoholic stupor.

It was but a short time ago that Justice Brush brought the Greenwich police to CosCob on a similar errand, when they found a snow white negro making a rumpus in the village street. He had been whitewashed while intoxicated. Still another case of the sort happened prior to that.

It is seriously averred by the habitues of the village saloon that the unfortunates were the victims of a regularly organized band of "temperance cranks," who, they say, are "worse than the Ku Klux Klan and the Night Riders of the south," and who, they believe, are trying to discourage drunkenness in this manner. They back up their assertion by pointing to the recent efforts of a certain faction residing along the Mianus river to do away with the liquor traffic. Others say that it is all the work of village wags.

—Lock Haven is preparing for a big time next Saturday when they unveil their Soldiers and Sailors Mounment. Gregg Post No. 95 G. A. R. of this place and the 5th. Regiment Drum Corp have been invited to take part in the parade.

—The wedding of Frank Fisher, of Boalsburg, and Miss Bertha M. Witherow, of Altoona, will take place in the Mountain city on Wednesday, June 20th. It will be a church wedding and quite an elaborate society event. William Bottorf and J. H. Robb, of this place, will be among the list of ushers.

—The marriage of Miss Helen Elizabeth Brouse, daughter of Mr. and Mrs. R. S. Brouse, of Thomas street, to Frederick William Topelt, of Brooklyn, N. Y., will take place at the home of her parents on Wednesday, June 9th, and will be a very quiet wedding. Rev. John Hewitt, of St. John's Episcopal church, will officiate.

—Mr. and Mrs. Franklin D. Lee, of near Bellefonte, have issued invitations for the marriage of their only daughter, Miss Maude Irene Lee, to Earle Orran Tibbens, on Wednesday, June 2nd, at twelve o'clock noon. Following their marriage Mr. and Mrs. Tibbens will be at home on east Logan street, this place after July fifteenth.

—The unknowable Negro in June Hampton's by Judge Dickson is an exceedingly interesting exposition of the negro problem in the South and shows how it is working itself out. Luther Trant the Psychologist Detective in the June number also is a detective story of new thought and absorbing interest is superior to Sherlock Holmes.

—The condition of Miss Margaret Garman, who was so pitifully stricken and lost her reason while visiting her aunt, Mrs. Maitland, in Williamsport, several weeks ago, has not improved. She is still in the Koser sanitorium at Williamsport and the attending physicians there give little hope for any improvement. The case is one of the saddest that has occurred in Bellefonte.

—The High School Alumni Dance in the Armory Tuesday night was well attended and all report a fine time. The music was furnished by Christy Smith's orchestra. The place was finely adorned with potted plants, flowers etc., and decorated with the National colors intermingled with the High School colors. The costumes worn by the ladies were unusually fine. Everyone voted the affair a great success.

—The Blackford's have decided to break up housekeeping in the apartments over Ceader's bakery, and store their furniture for the time being. Mrs. Blackford and daughter, Miss Grace, will go to their own home with Mr. and Mrs. Clyde Blackford while Mrs. Linn Blackford and children will go to the home of her parents, Mr. and Mrs. Garthoff, where she will remain until her husband gets permanently located in a good a position.

—On Tuesday evening May 25th the Snow Shoe Dramatic Club, under the direction of Prof. B. J. Bower, produced the four act drama entitled "The Miller's Daughter" in the Snow Shoe Opera House. The play was exciting throughout and well acted by the local talent who took part. In the cast were Thomas Kelley, Merry Gilliland, Harry E. Leathers, James Redding, Robert Thompson, Philip Budinger, Clarence Thompson, Ivy Uzzle, Oscar Shank, Irene Uzzle, Alice Leathers, Susan McGown, Mame Langton, Josephine Hunter. There were specialties by Lulu Stover.

—Monday evening James Bayard and Brint Mongon imbibed a little too freely with the result that they were placed in the lockup. Not being exactly suited with the confining qualities of their quarters they attempted to break out but only succeeded in badly damaging the lock upon the door. Being baffled in their delivery purposes they tackled the water spigot and managed to break it off. It is hardly likely they contemplated the result, but be that as it may, they met their just deserts: The water poured into the building and there being no escape it soon covered the floor and began to rise. The men bellowed for release but got no reply. They finally managed to knock a hole in one side of the building about eight inches from the floor and this kept the water from rising higher than that. As it was however, they were compelled to stand in water over ankle deep all night and as punishment for their act the burgess kept them there until late Tuesday afternoon, when they were released, looking more like drowned rats than anything else. The next time they are locked up they won't monkey with the water spigot.

STAGE-STRUCK DOG FOLLOWS CIRCUS

Bull Terrier, $50 Pet, Leaves His Happy Home.

Indianapolis, Ind., May 26.—William Wocher paid $50 for a bull terrier at a New York kennel several weeks ago, and last week, while a dog and pony show was parading the streets Wocher couldn't keep his dog at home. He went to the show grounds several times, but the dog could hardly be dragged home, so infatuated was he with dog-show life.

Sunday the show left the city and Wocher's dog disappeared at the same time. Telegrams sent to Kankakee, Ill., brought information that Wocher's dog was with the show, that all attempts to drive him away had failed, but that he would be shipped back to his master.

—Mrs. John Kreamer, of Centre Hall, is at the Bellefonte hospital in a rather serious condition. Some months ago she was operated on in that institution, and later growths developed where the openings had been made, and it was to remove these growths that the second operation became necessary. While this operation was in progress, the patient became too weak to continue it to completion, and the surgeons were obliged to temporarily close the wound and await a time when she could with stand the strain.

Students Long Walking Tests.

Pennsylvania State College's department of forestry is just completing arrangements to hold three endurance walking tests for its students. It plans a two days' endurance test of sixty miles a one day endurance test and a speed test of twenty miles. These tests will be open to the forestry students only, and will be entirely optional. Merchants in the village of State College and in Bellefonte have promised prizes which will be of considerable inducement to those students entering the contest. The firm of Potter-Hoy Hardware Company will give a revolver and a hunting hatchet. The Mallory Photographic Studio will give a dozen of its best photographs; The Toggery Shop of State College will give a Mackinaw coat, and a steel fishing rod and hunting knife will come from the Meek hardware store. The department's wish is to put these tests through because of their value in interesting its students in walking, and because they will give the men an idea of what is necessary to carry in one and two day's woods trips, as the tests will require the men to carry their rations.
